Professional Summary

Computer Science undergraduate with strong programming fundamentals and hands-on experience in Full-Stack Web Development. Looking for opportunities to contribute to real-world software projects while continuously growing as a Backend Developer and Full-Stack Developer.

SKILLS

Programming Languages: Java, C, JavaScript
Frontend Development: HTML5, CSS3, React.js
Backend Development: Node.js, Express.js
Databases: MySQL, MongoDB
Tools: VS Code, Postman, Git, GitHub
Concepts: REST APIs, JWT Authentication, Middleware, MVC Architecture, OOP Concepts, Basic Data Structures and Algorithms

PROJECTS

CreatorsHub: Creators Collaboration Platform

[GitHub](#) | [Live Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a creator collaboration platform supporting user workflows for portfolio management, networking, and Real-Time communication.
- Designed end-to-end collaboration workflows, including creator discovery, request handling, and seamless transition to messaging, reducing manual connection effort by ~40%.
- Integrated real-time chat with file/media sharing (8+ file types) and peer-to-peer audio calls, enabling instant communication with <300 ms message latency.
- Built secure and scalable backend services with JWT authentication, protected routes, and efficient data handling supporting 1,000+ messages and user interactions.

ASK-Q : Student Doubts and Problem Sharing Application

[GitHub](#) | [Live Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Built a Full-Stack Campus Networking Platform that allows students to publish posts, raise queries, and engage in academic discussions within their college community.
- Implemented functionalities like category-based filtering (branch and year), content sharing with attachments (PDF, images, docs), and commenting on posts, improving content discoverability by ~35%.
- Designed a secure backend using JWT authentication, protected APIs, password hashing, and efficient management of user and post data.

Portfolio

[GitHub](#) | [Live Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Built a personal portfolio website to showcase 2+ projects, technical skills, and development experience.
- Structured the website with clear sections for projects, skills, education, experience, and contact information.
- Included project details with GitHub and live demo links, enabling visitors to connect easily.

EDUCATION

- 2023 - 2027 Bachelor of Technology in Computer Science, Srinivasa Ramanujan Institute of Technology, Anantapur (GPA: 8.63)
- 2023 Class XII Board of Intermediate Education (93%)
